Hello,

I hope that you are all keeping well and have managed to have nice, albeit different, Easter break.

This week we are launching a new way to work with Year 10 students via Microsoft Office 365 < Class Notebook.

This week your child should have been invited to Class Notebooks for each of their subjects. It is likely that they have received this invitation into their Inbox in their Office 365 email.

Class Notebooks is a space where they can find personalised resources from their teachers and work specifically for them. It is also a space where they can save their completed work for staff to mark. All work to be marked should be saved into the folder '**Completed Work**' in their notebook. There is also means on here for staff to deliver video lessons and for class students to chat together.

Please follow the link below which should take you to the login for your child's Office 365 account.

Please encourage your child to use this platform to access their work as especially with being in Year 10, it is crucial that they are working independently and sharing their work with staff so that they can receive feedback.

Thank you.

Mrs Farley
